Then, visit the beautiful **Höfði House** and the **Hallgrímskirkja Church** where you can view the novel exterior of the Lutheran parish church tower along with the statue of Leifur Eiriksson situated at its front. Next, proceed to the amazing **Blue Lagoon** (Comfort Package) geothermal spa famous for its healing mineral-rich waters surrounded by jetblack basalt lava.

## DAY 4 (B/Norway Lobster Dinner)

### REYKJAVIK – GOLDEN CIRCLE – SELFOSS

This morning, proceed to **Thingvellir National Park**, where the North Atlantic Rift, which separates the North American and European continents, can be prominently viewed inside the **Almannagja Ravine**. The world's oldest functioning legislative body, the Icelandic Parliament, was also established here. Continue to the stunning two-tiered **Gullfoss waterfall**, with white glacial waters cascading 32 m into a 70 m-deep canyon and considered one of the most beautiful on the island. Drive to the geothermal Great Geysers Area with its many hot springs, mud pools, and geysers and witness the spouting of **the Strokkur**, the world's most active geyser, erupting about every eight minutes.

## DAY 5 (B/Hotel Dinner)

### SELFOSS – SKOGAR – VIK

Travel through farmlands to the black sand beaches, thundering waterfalls, volcanoes, and majestic glaciers of the south coast. Make a stop at **Seljalandsfoss**, where it is possible to walk behind this magnificent wall of water. Continue to the local village and visit the open-air **Skogur Folk Museum** to learn about the lifestyle of Icelandic people in the past. En route, make a stop at **Skógafoss**, the waterfall falling gracefully 60 meters down the green mountain, which has been used more than once as a motif in advertising.

\*\* Mid Sep-Mar departures \*\*

If the aurora forecast is good, take a walk with your tour manager in search of the Northern Lights.

## DAY 6 (B/Hotel Dinner)

### VIK – JOKUSARLON – VIK

After breakfast, proceed to the stunning **Jokulsarlon Glacier Lake** where breathtaking sights of floating icebergs can be seen. Sail away on a **boat cruise** in the summer (from June to September only) and immerse yourself in these awe-inspiring and breathtaking structures of nature. Jokulsarlon has also been the setting for popular Hollywood movies such as "Die Another Day," "Tomb Raider," and "Batman Begins." Continue to **Skaftafell National Park**, Iceland's second-largest national park, with views similar to the Alps, which were formed over thousands of years by different influences of fire, water, and rivers. Then, continue to the **lava fields of Eldhraun** (fire lava), which resulted from a yearlong eruption in 1783 and were referred to as the "misty times" due to the prolonged lingering of the volcanic ash for a prolonged period of time.

\*\* Mid Sep-Mar departures \*\*

If the aurora forecast is good, take a walk with your tour manager in search of the Northern Lights.

## DAY 7 (B/Hotel Dinner)

### VIK – HUSAFELL – REYKJAVIK

Get on-board a **monster truck** for a once-in-a-lifetime adventure deep inside one of **the world's largest man-made ice caverns**. The caverns are composed of an extensive system of tunnels and chambers that stretch close to 300 meters into the solid ice cap, towards a breath-taking natural ice cave at the heart of the glacier. Afterwards, continue to Reykjavik.
