**Dazaifu** : Built over the grave of Michizane Sugawara (known as God of Literature) in Japan. Many students worship him for good knowledge and good exam.

**Fruit Picking** : Seasonal Fruit picking e.g. Strawberry (Jan~May), Blue berry (Jun~Aug), Grape (Aug~Sept), Apple (Sept ~Nov), Orange (Oct~Dec). This is only for reference and all fruits are subject to climate condition.

**Dolphin Watching** : Take the cruise to the inner sea to watch the dolphins from the wild.

**Sakurajima** : The mystical lava road was always a top visiting site. There is an observatory deck for good view and feel the power of this active volcano spewing smoke up-close.

**Oni no Sentaku Iwa** : Also known as "Devil's washboard" which was caused by the enduring waves made onto the igneous rocks.

**Hot Sand Bath**: One of the unique activities you can consider to experience. Which is beneficial for treating muscle pain, arthritis etc.... just lie down in a hole they've dug in the sand, next, an attendant will then shovel sand onto your entire body. (Optional JPY 1000 by own expenses)

**Blood Pond** : Beppu is named as a town of Hot Spring. You can see smoke comes out everywhere from the ground. Blood Pond is one of the natural hot spring pond red in color like "blood"
